“Ci sono tanti modi per accostarsi agli infiniti capolavori dell’arte italiana e, come designer, rimango ogni volta affascinato dalle linee. Linee morbide o ardite, semplici e disarmanti, oppure complesse fino alla vertigine ... sempre e comunque capaci di trasmettere emozioni e sensazioni uniche. Le linee sintetizzano lo stile, l’eleganza e l’inimitabile prestigio dei prodotti frutto della creatività italiana di ogni tempo e sono fonte di ispirazione quando, prima con la mente e poi con la mano, traccio le mie personali linee: quelle delle mie penne. ”

“There are many ways to approach the countless masterpieces of Italian art, I am always fascinated, as a designer, by their lines. Soft or bold, disarmingly simple or of dizzying complexity, these lines contain the power to evoke emotional response and unique sensations. The lines encapsulate style, elegance and inimitable prestige of Italian creativity in every era. This is where I take my inspiration when, firstly in my mind, and then on paper, I draw my own personal lines: the lines of my pens. ”
